## components

**A** Uprights (x4)

**B** Pan Head Pozi

**C** Corner Gussets

**D** Shelves

### Tools required:

- PZ3 Screwdriver
- 10mm Open Spanner
- Tape Measure
- Spirit Level

## SAFETY INFORMATION

---

Please read and understand this entire manual before attempting to assemble, install or use the product.

- Two adults required for assembly.
- Do not allow children to climb or play in or around the shelves.
- Each shelf must be loaded evenly with a distributed load.

## PREPERATION

---

Before beginning assembly, make sure all parts are present. Compare parts with package contents list. If any part is missing or damaged, do not attempt to assemble the product.

**Estimated assembly time: 35 minutes (Depending on number of tiers)**

- Carefully read all instructions, warnings, notes and cautions before beginning assembly.
- Decide on the desired shelf location prior to assembly, moving shelves once assembled is difficult without completely disassembling the unit.

## Item Quantity Breakdown

---

### 5 Shelf unit

- 4 x Uprights
- 5 x Shelves (8 bolts per shelf)
- 24 x Corner gussets (2 bolts per gusset)
- 88 x Bolts & Nuts

### 6 Shelf unit

- 4 x Uprights
- 6 x Shelves (8 bolts per shelf)
- 24 x Corner gussets (2 bolts per gusset)
- 96 x Bolts & Nuts

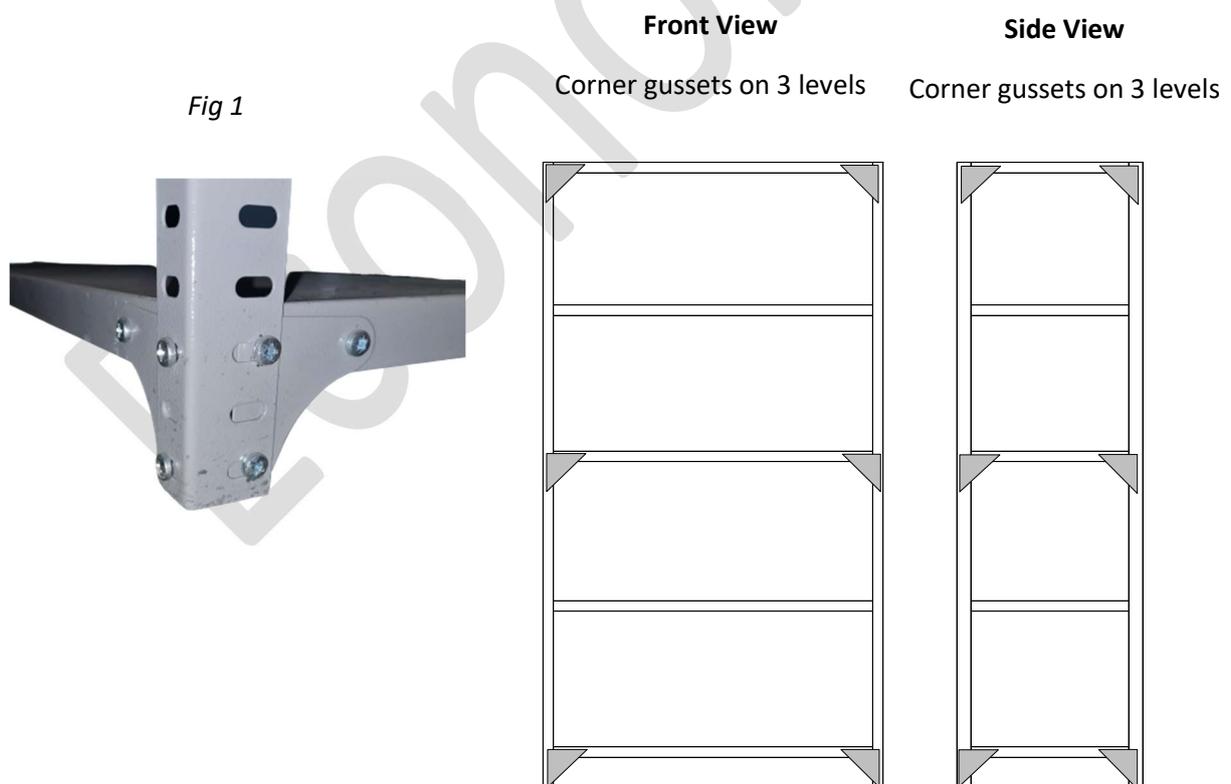

### 7 Shelf unit

- 4 x Uprights
- 7 x Shelves (8 bolts per shelf)
- 24 x Corner gussets (2 bolts per gusset)
- 104 x Bolts & Nuts

## Assembly Instructions

---

- Lay out 2 uprights on the floor.
- Bolt a shelf into the top holes of the uprights.
- Bolt a shelf into the 3<sup>rd</sup> hole from the bottom.
- Measure the clearance you would like between shelves and mark the hole.
- For equal distance clearances – Measure the distance between the top shelf & bottom shelf, then divide the measurement by the desired number of openings. E.g. 1700mm clearance / 4 openings – 425mm shelf centres.
- Place the shelves so that the bolts go through the shelves.
- Put a corner gusset between the upright and the shelf on three levels (Top, Middle, Bottom). NB each shelf requires 8 corner gussets (Front & Side) see fig 1.
- Tighten the bolts.
- Turn the shelving unit onto the other side, install the remaining uprights and fix the gussets to the three shelves.
- Stand the bay of shelving upright and check the levelness of the unit using a spirit level.
- You may need to loosen the bolts where the gussets are to level the unit, once levelled tighten all the bolts & nuts.
